Submit

When they submit, you and they will receive an email saying so. In theirs it will say:

And the on you will receive will say:

You will then create a profile for them via the link in the email and only putting in their name, business name and email. Their email will be their login and the business page will be the page name for their site.

Name *	<input type="text"/>	<input type="text"/>
First		Last
Business Name	<input type="text"/>	
Email	<input type="text"/>	

They will get 2 emails when you submit the new profile. 1 with the login and password as well as a welcome email to inform them they need to log in and finish their profile.

Thank you for joining our team of women artisans!

You would have received an email with your login details for WomanMade.com.au. Make sure you login [here](#) to edit your profile. We will verify your content and publish it live to our site as soon as we can. If there are any questions we will contact you right away.

Welcome to WomanMade!

You will get an email when they have updated their profile. Once its satisfactory then you will need to log in and click the the 'Private Profiles' button to select their 'unpublished' pages. You will go to their page via this screen and click the 'edit' button at the top then scroll down to the bottom of the page and change the 'page status' from private to published. Don't forget to click 'update'.
